P.Audio In Canada

New Line Of High Quality Cost-Effective Molded Cabinets

Erikson Pro is pleased to announce that they have been chosen as the new exclusive distributor for P.Audio products in Canada. This manufacturer of quality loudspeaker components is renowned throughout the world for outstanding quality. They have finally agreed to produce finished goods, specifically, **molded cabinets in both powered and unpowered versions**. These loudspeakers are not only superb quality, but also very well priced.

Erikson Pro General Manager, Chris Bouchard: "We are excited to work with this forward-look-

ing company. Watch for the **A, C, and S Class Series** which we will be introducing as they are made available later this year.

"And you can count on more excitement — a **digitally powered two and three way series which will include dual 15" molded cabinets**, is planned for winter NAMM 04. This is very advanced technology, and it is sensibly priced, very sensibly priced."

Cabinets are fitted for **pole mounting**, and there are recessed **mounting points for flying hardware**.

Applications include installations, clubs and discotheques, churches, and live sound reinforcement.

Get On The Net!

Fostex NetCIRA For 100Base-TX Networks

Fostex introduces a range of innovative products for distributing audio over standard ethernet networks. NetCIRA™ (Network Commercial, Industrial & Residential Audio), **EtherSound™ - based product solutions** combine to provide elegant, practical and cost-effective **digital audio distribution and management**.

Distributed over "off-the-shelf" CAT5 UTP LAN cable, NetCIRA is fully **IEEE802.3 compliant**. More than **60,000 individually addressable modules** can be placed on any one network, each with access to **64 channels of 24-bit 44.1/48kHz digital audio**. Either **star, daisy chain, or a combination of both** topologies can be planned and utilized.

Applications include installed and zoned audio, live performance PA, broadcast, and residential.

AKG Extends 3 Year Warranty Coverage

The millenium brought some great news from AKG. In the year 2000, AKG introduced the extended 3-year warranty for all large-diaphragm condenser microphones. Now this 3-year warranty coverage is being extended to a number of AKG's small diaphragm condensers. Included models are: C451B, C451B/ST, C480B-ULS cb/6, C480B and all ULS-capsules, C391B SE300B and all Blue Line capsules (except for CK 97-X), C2000B, C2000B/US, C1000S.

MARTIN FINGERS Playback Module For LightJockey

Martin's LightJockey 2, the perfect computer-based (Windows 2000 compatible) controller for the club and mobile DJ market, has been enhanced with the addition of the Fingers playback module. It features 12 playback faders; keys for direct access to cues, effects etc.; 5 jogwheels; MIDI in/out; audio input; and USB to interface with the PC.

KRK ST6 & ST8 Now Shipping!

KRK has raised the bar once again. With the introduction of the ST6 and ST8 passive monitors, KRK set a **new standard for entry-level, professional quality, studio monitors**.

Made to exacting specifications set forth by the award winning KRK engineers, the ST6 and ST8 **perform with all the integrity and truth inherent in their heritage**.

Shielding is standard. The ST6 and ST8 feature (respectively): 1" Silk Dome tweeters; 6.5"/ 8" DLDA aluminum woofers; 62Hz-20kHz / 52Hz-20kHz frequency response; 89dB / 90dB sensitivity; 107dB / 109dB max. SPL (peak); and 100W / 120W max. power handling. Nominal impedance is 8Ω.

If you don't want to break the bank, but wouldn't dream of jeopardizing a mix, the ST Series are the right monitors for you.

Compulite CompuRACK

DIMMER CONTROLLER COMBINES BEAUTY AND BRAINS

The Compulite range of DimNET computer controlled dimmers has come to Canada. The first in this line is the CompuRACK, engineered to provide a **cost effective, non plug-in solution for venues and architectural installation**. Its **low profile depth** and **highly designed look**, makes it perfect for **wall mount** installations; and its **convection cooling system assures quiet operation**.

automatic frequency and line voltage compensation; and **DSP to detect zero-crossing in the presence of noise**.

Up to 99 backup looks can be stored in the rack control module (RCM) and played back with fade times.

Dimmer Monitor PC software is a Windows based application, enabling full control and monitoring of the CompuRACK. It allows full control and configuration of the Compulite Ethernet network, and communicates with the entire range of Compulite's Ethernet capable consoles and devices.

CompuRACK holds **up to 24 x 2.4Kw or 12 x 5Kw dimmers** and comes with a **built-in computerized control interface**. It features: **1 X DMX512 input**; optional **1 X RJ-45 Ethernet input** or **2 X DMX512 inputs**; **graphic LCD display** with adjustable backlight; **3-phase indicator** and communication status LEDs; **keypad**; menus with direct access; **soft keys** for programming; **easy software upgrade**;

Quik Lok

ZJ-755

Quik Lok makes **the perfect stand for live DJ performances**. The sleek, attractive ZJ-755 with its innovative "Z" design sets up and folds down in seconds. It features a spring-loaded, dual pin, height adjustment system that instantly releases and locks the structure into the desired height position.

Constructed with **computer-welded, 14-gauge steel**, it's **strong, stable and safe, with absolutely no shake at all**, and accommodates two turntables, a full or half rack mixer, and a single or dual CD player.

Best of all, the ZJ-755 is **now available at a new lower price!**

quick notes

Antares

Sting's new album, "Sacred Love", was created, in part, with the help of Antares **kantos**.

Over the past year, we knew that members of Sting's production team were excited about kantos and the possibilities it presented. Now we know why. kantos is one awesome creative tool! Check out the new single, "Send Your Love", which is featured at www.sting.com.

Gator

HAPPY BIRTHDAY, MR. GATOR! It's been 3 years since the Gator Case Company was

formed. It's mission? "Create an innovative line of transportation products with superior quality and, at the same time, match tomorrow's end-user needs at a very affordable price."

And that's what they've done. Consider this: **Gator has created a line in which 75% of the products are without competition**. That makes for easy sales. As you know!

Martin

Avril Lavigne's hugely successful tour this past year has relied on Martin lighting, supplied by **Christie Lites**. The show featured: 22 x **Mac2000**; 16 x **Mac600NT**; and 22 x **Mac250** fixtures.

Fostex Headphones T20RpmkII

Fostex has brought the industry standard T20RP to the next level. The T20RpmkII has the neodymium magnetic circuit and zigzag pattern RP diaphragm from the flagship T50RP, to reproduce natural and clear sound across the full frequency range. Features include: improved maximum input of 2000mW (T20RP: 200mW); high sensitivity and excellent transient handling; single, detachable cable; newly designed large size semi-open housing cases and ear-pads.

New Gator Rack Table and Projector/Laptop AV Cases

Gator's extensive lineup of racks and cases continues to expand at a steady pace.

GR-Table This is a table that **secures to the top of your rack**, offering a safe, flat surface on which to put equipment. It is **compatible with most manufacturers' plastic rack male / female stacking systems**. For security, the GR-Table is cinched down to the rack handles with parachute webbing and a tightening fastener. The **top is covered with industrial grade Velcro and includes Velcro strips to mount on your equipment**. The table is **made of high-density military grade Polyethylene**, making it incredibly durable.

Lightweight and extremely durable, the GAV-1412R **meets airline carry-on regulations**. An **interior blocking system** fits a

multitude of different projectors. **Made from 1680-Denier Ballistic exterior material**, it includes a **removable professional laptop shoulder bag**. Six self-lubing

wheels for superior support. It also boasts a rugged telescoping, locking pull out handle; six self-lubing wheels; and external pockets for easy access.

GAV-20 Meeting all **airline carry-on regulations**, the case has **two padded compartments as well as a file compartment**. A **collapsible second interior compartment** makes it

slim-line for only carrying documents or documents plus a laptop. It is **made of 1680-Denier Ballistic exterior material**, and has a **padded carrying handle and removable non-slipping web shoulder strap**.

GAV-1412R It's the **ultimate professional projector/laptop case at an affordable price!**

GA-300 Now available **for all console racks**, this **castor kit** "gets you rolling!"

AKG WMS4000 Now Shipping!

A new era of wireless technology has begun. The WMS4000 is the **ultimate wireless microphone system** for installers, contractors, sound companies, and broadcasting stations. An **incredibly versatile wide-band UHF system**, it has a

True Diversity receiver, software control capability, **1200 frequencies in each of six bands** (different bands available for different countries), a **revolutionary battery charging system**, and a line of extremely useful accessories for a multiplicity of applications.

Optimized for ease of use and elegant appearance, all transmitters and receivers provide a **backlit display** for clear status indication to make your life in the audio world easier. A turn/push **jog control for single-handed adjustment** ensures ultimate user-friendliness.

Frequency Presets, AutoSetup, and frequency scanner functions make it easy to set up a multi-channel system. Frequencies can be set automatically or manually selected from Preset Groups and the scanner can be used to find the "cleanest" frequencies for added reliability.

Never before has a manufacturer offered such a clever, future-oriented, expandable wireless system at this level of quality at a comparable price. The WMS4000 sound is definitely not "wireless" but natural, powerful, and detailed!
